Hi Leanne,

Many thanks for sending along this nifty meeting agenda. Looking forward to our chat and with a little luck – the ECY portal will let download the memo goodie. ☺

Chris

Subject: meeting tomorrow

Hi Chris, Laurie, and Ben,

We are hoping that we can resume our meetings this week (tomorrow!)

In terms of agenda from our end we have two items:

1) We've drafted a document describing our averaging methods and discussing how they are biologically based and protective of the water quality. I've posted it to the SharePoint ParterWeb site in the "memos" folder. If you have time to read it before tomorrow, it would be great to hear your thoughts.

2) We were also hoping to discuss options for dealing with stormwater and were hoping to pick your brains a bit about options and what you've seen other TMDLs do.

Let me know if we are on for tomorrow.

Best,

Leanne
